

Autonomous Docking Stations

<https://nxtqube.com/>
mail@nxtqube.com

PRODUCT FEATURES

Fully Autonomous operations via remote access

Built in AI & Data Processing

Automatic Charging and Battery Swapping

Precision Landing

Integrated HVAC System

Maintenance & Support

Fully Encrypted Data

Power Backup

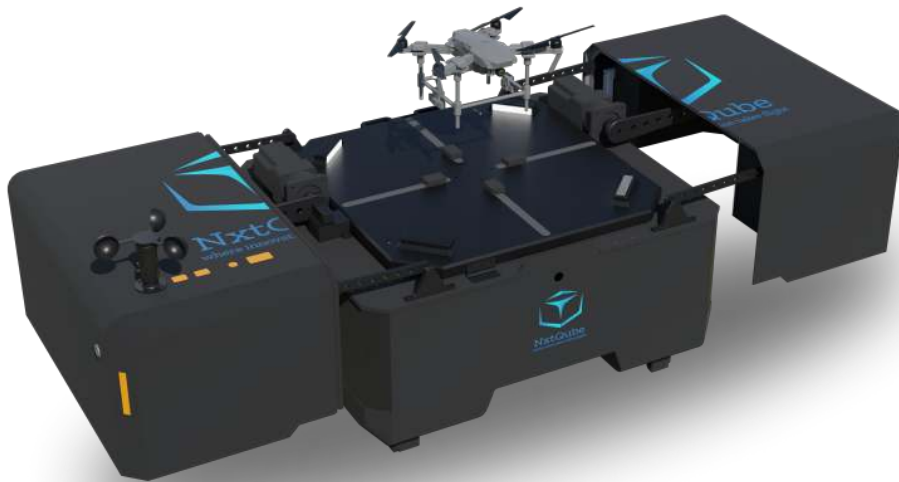

Modular

2 Point Contact

IP Rating - IP55

NxtCube

PRODUCT VALUE ADDITION

Drone Manufacturer

- Level 2 + drone autonomy.
- Self operated drone, accessibility.
- Automated drones for novel use cases.

Drone Service Provider

- Automated drone data collection.
- Data Analysis & collection.
- Simultaneous and scalable remote drone operations across multiple locations.
- The Effort-to-Cost value proposition increases.

End User

- Real time accessibility of all flight operations & pre-scheduled flight information.
- No human-intervention required at regular intervals.
- No technology liability.
- Specific customization as per use case.
